Look for Corporate co-operation, firm cooperation

## **Nursing**

I advise on the IHK Koblenz, among other things, care and care services. On the basis of a market study carried out, there is (known) a great need in this area with corresponding business models. What is virtually non-existence, however, is the business model "franchisor".

I am therefore looking for an entrepreneurially minded business partner who runs a nursing specialist service in order to be able to companies to distribute Franchisegeber licenses.

The following unique selling points will be applied to this purpose:

- Combination of a well-managed and presentable care service on the one hand and an experienced businessman with representation on the other hand.

### Co-operation
