Advertising agency for HoGa

Well-established advertising agency with specialization for the hotel and catering industry for immediate purchase. The agency has been in existence for almost 9 years. The frequented internet presence (internet address, Facebook profile) is sold. All rights to name and logo and Google and social media profiles go to the buyer. A good start to self-employment. The agency is ideally suited for marketing professionals, advertising clerks, graphic designers, media designers or web designers on the move into self-employment. The company is not local. There are no employees to take over. The purchase price is very fair and could also be paid over 1 or 2 years, monthly.

We look forward to hearing from you. It is best to talk about all possibilities in peace.
