Trade in hunting and sports accessories (weapons, accessories)

A trading company in the field of hunting and shooting is sold.

The company is growing at triple-digit growth rates and receives top ratings from customers. Several brands are represented as exclusive partners in wholesale and direct sales. Across all, a full cost margin of 13% was achieved. The potential for further, strong growth is there and is already prepared. Further exclusivity agreements have already been concluded and require only the final blessing. The company has a permanent sales representative, 3 shareholders and a freelance ittlter as employees.

The customer base in the B2B area extends over the entire federal territory, as well as Austria. Several detained authorities are also part of the customer base (which is why it is also possible and in preparation to expand the business in Kat A). The retail business is also broadly based.
