Education and training providers

We support people with and without a migration background in their integration into the labour market. To this end, we carry out individual and group measures (individual coaching on topics such as reorientation-reorientation, applicant coaching and group: placement in employment) for the employment agency or the job center. We are freshly certified as an education and training provider for 5 years. Furthermore, we also have educational and advisory services for start-ups. In recent years, we have focused on the care and health sectors. So e.B start-up advice in the social or care sector and also job placement in the health sector.
