Business for sale more than 15 years

ID 22843

Look for Corporate follow-up, firm follow-up, follow-up **Construction, craft and service companies**

We are a medium-sized and owner-managed family business from the construction and real estate industry. Our group of companies employs around 5,600 people throughout Germany. In addition to our core business "the purchase, construction and rental of real estate" we invest in construction, craft and service companies along the entire value chain of real estate. We pursue a long-term buy-and-build approach. As a family business, we think about generations.

We are looking for further suitable investment and takeover opportunities in the real estate industry.

We would be pleased to talk to you personally.
