## Therapy wellness center for horses

We need a money for start. For a therapy wellness center for horses I myself have an Austrian Warmblood who is 7 years old and has osteoarthritis of the foot. My husband and I would like to open a stable that pays attention to the well-being of a horse suffering from osteoarthritis and offers various therapies, treatments and much more. We would show private individuals how best to manage their horse with the disease and would offer treatments such as leech therapy, arthroscopy and stem cell therapy and much more. The facility organizes and plans all treatments for a horse. From the day of the diagnosis up to the eventual regeneration after stem cell therapy. And about the aftercare. We have a guest house that we will rent on airbnb and a detached house consisting of two semi-detached houses that we also rent for riders who like to live with their horse on a farm

We offer :

- to open a riding facility in their name
- as well as a guest house, e.g. Haus Lena or Haus Gabriel
- Large advertising space for your company
- If horse owner, free parking space
- If the riding facility runs well, you get 8% of the monthly profit

### Capital

Region 27, Germany

Entry in own name
