## Offer Corporate sales, firm sales, sales **Co-working space with childcare**

About 6 months ago I opened a coworking space with childcare in . The concept is that working parents can leave their children in childcare and work in the connected co-working space.

The childcare is organized as a playgroup, which is why no conditions according to a KiTa/KiGa are necessary (comparable to the Smalland). Ideal for franchising.

The concept has met with an extremely positive response. I am in negotiations with the Youth Welfare Office for funding and there are (and are partly in negotiations) cooperations with large surrounding companies and state institutions. There are concrete requests for the opening in other cities.

The rented premises are located in the middle of . The rooms are fully equipped.

For private reasons, I am forced to give up the company.
