## **Manufacturers of tools**

The company to be divested is a leading manufacturer of tools in its segment. The company has a long tradition and great know-how.

The complete tool family is developed, designed and manufactured in-house. This guarantees the high quality standard for which the company is known. The design of the tools according to customer specifications as well as the maintenance of the tools complete the offer of the company. In this way, the company develops very good customer loyalty with corresponding follow-up business over many years.
