Property management

We are a team of 3 people on the basis of an existing GmbH and are looking for a property management company in the Munich area to expand our company, which we would like to continue.

We have 15 to 25 years of professional experience in the real estate sector with well-known real estate managers per person. During this time, we have managed various holdings across all types of use (residential, office, retail and logistics). We also have a real estate management education (e.g. Dipl.-Betriebswirt (FH) real estate industry).

We look forward to getting to know you personally and exchanging ideas.
