Offer Corporate follow-up, firm follow-up, follow-up **Supplier and installer of modern components**

The company is an established supplier and installer of modern construction elements such as windows, doors, shutters, roller shutters, individually planned conservatories and patio roofs. The employees are highly qualified skilled workers with individual training and the qualification to carry out simple electrical work. The company has a fleet of vehicles, its own warehouse and hall parking spaces and a showroom for customers, and its website has a modern design.

The strengths of the company lie in the wide range of modern components and the all-round support of customers. This includes consulting, planning, ordering, dismantling and assembly, connection and plastering work as well as subsequent maintenance and service offers.

The sales potential lies in the energy-efficient refurbishment of old buildings, in particular the replacement of windows and doors.
