## Offer Corporate follow-up, firm follow-up, follow-up **Enterprise**

Over the past 5 years, a team of experienced enterprise software experts with a total of 30 years of experience has developed an industry-independent cloud software solution for B2B and B2B2C from their own resources. This integrated software covers all business processes, from origin to end customer, and optimizes their impact on the environment and society.

In terms of functionality and design, the system is a real innovation, from which clear unique selling points can be derived.

The globally addressable market is driven by megatrends and the resulting consequences in capital procurement and corporate compliance, keywords: Corporate Sustainability Reporting Directive (CSRD), Corporate Sustainability Due Diligence Directive (CSDDD), Environmental Social Governance (ESG).

The solution is used by a number of customers, from SMEs to large enterprises, which means that part of the revenue is based on recurring SaaS fees.
