## Offer Franchise, license **Advertising agency**

Franchise concept

The franchise model allows entrepreneurs to leverage the franchisor's business concept, brand name, and operating practices. In return, franchisees pay fees and follow set guidelines. This offers the advantage of working with an established brand and a proven concept.

We offer various franchise packages, including:

Website and support: A tailor-made website and two months of personal support.

Access to influencers: Access to a network of over 2,000 influencers.

Work materials: Provision of laptop, mobile phone and optional office equipment.

On-site coaching: A personal coach helps set up the location.

Additional support:

Franchisees benefit from regular surprise packages with work materials, customer gifts and updates on operating procedures. You are part of a team that creates and invests companies together.
