Look for Corporate follow-up, firm follow-up, follow-up **Language school**

Request: Established language school in the area for sale

As a successful self-employed person in the field of skilled worker placement and with many years of experience in the administration, management and coordination of language schools, I am looking for an established language school in the area for sale.

Requirements:

Course offer: Integration and vocational language courses with BAMF approval.

Examination centre: Recognition for telc and g.a.s.t. required.

Quality standards: Existing quality management (QM) and AZAV certification are an advantage.

Location and transport connections:

The school should be easily accessible, ideally close to underground/suburban train stations and bus stops. A central location promotes the acquisition of students and corporate customers.

Contact:

We look forward to your offers. Please contact us if you offer a suitable language school or have more information.
